Introduction ____ Story Setting and Background

In Tenmei 3 (1783), a large eruption occurred on Mt.Asama, a volcano that is located at the border with Nagano Prefecture. This scale of the eruption, rarely seen in history, is known as "Tenmei's Asama Burn." On August 5, a large explosion caused an avalanche of earth and stone, which became a mudflow and caused the disastrous flash flood in the Agatsuma River, affecting various areas. This is the "Tenmei mudflow."

What kind of era was the 3rd year of Tenmei?

What kind of place was Yamba at that time?

Let's look back at the setting of the the historical background.
